

FOR IMMEDIATE RELEASE

Plano, Texas April 1, 2025

**Luminator Technology Group to Exhibit at the 2025 APTA Mobility
Conference in Austin, Texas**

Luminator Technology Group (Luminator) is pleased to announce that they will be exhibiting at the 2025 APTA Mobility Conference, taking place in Austin, TX, on April 8th. You can find Luminator at booth 303, where they will be showcasing their latest advancements in mobility technology.

As the global market continues to evolve, Luminator is dedicated to adapting and growing, and were excited to present our new mobile video solution, RoadRunner Pro, along with the Luminator Software Suite, and our new infotainment series, CONVEY™. The RoadRunner Pro solution has been redefined to have cutting-edge capabilities and a user-friendly design, integrated with our mSET software. This on-board system supports up to 24 camera channels with AI capabilities, and is backward compatible, ensuring smooth integration with our new CONVEY™ infotainment system. By harnessing the AI capabilities of this open platform, transit systems can enhance their operations, optimizing real-time conditions and delivering timely updates.

In addition, the new CONVEY™ solution, paired with the Luminator Software Suite, allows customers to control their entire fleet through a single, web-based user interface. The software allows easy access to changing displays such as configurations of destination messages, route numbers, and public information that can be transferred directly to the vehicle via WIFI or Cellular. Be sure to stop by booth 303 to check out other exciting products, including Video Mirrors, Colored Destination Signs, and ePaper displays!

About Luminator Technology Group Global, LLC

Luminator Technology Group delivers globally recognized technology solutions that increase intelligence, safety, and efficiency for public transit operations. Luminator Technology Group (Luminator) was established and is purposefully architected to make a lasting impact on the transit technology market. Combining strategic research and development with smart acquisitions, we are merging a broad range of expertise and new technology along with best-in-class products from successful, well-known regional companies into one cohesive, global organization.

Luminator is uniquely positioned to provide solutions to connect transit passengers to vital information while supporting the operational objectives of efficient transit operations. Supporting transit bus and rail car manufacturers as well as public transit operators around the globe, Luminator is developing and delivering technology with tangible benefits to public transit.
