Luminator and Clever Devices Successfully Integrate Systems to Enhance Health Reporting for RoadRunner Pro Mobile Video Solution

Luminator Technology Group is pleased to share the successful integration of RoadRunner Pro with Clever Devices' IVN to provide rapid health reporting. Clever Devices is a full-solution ITS provider that helps public transportation providers enhance operational efficiency.

This integration builds on the existing capabilities of RoadRunner 4k and RoadRunner AHD recorders, extending health status data communication to the RoadRunner Pro system. The integration of RoadRunner Pro with Clever Devices enables the exchange of real-time health data to the on-board Clever Devices' IVN unit. This seamless communication ensures that transit operators have immediate access to critical system health information, enhancing their ability to manage and maintain their video surveillance effectively.

This integration reinforces the partnership between Luminator and Clever Devices, delivering comprehensive cutting-edge solutions to the public transportation industry. For more information, please visit our website at www.luminator.com.

About Luminator Technology Group

Luminator Technology Group (Luminator) is a leading manufacturer of stationary and on-board passenger information systems, video security, air treatment and lighting solutions for global mass transportation applications. The company, founded in 1928, leverages its extensive engineering resources to develop solutions that increase intelligence, safety and efficiency for bus, rail, and aerospace operations worldwide.
