

**FOR IMMEDIATE RELEASE**

**Plano, Texas October 21, 2024**

**Luminator supports Trinity Metro's new encompassing passenger experience through new INFOtransit solution.**

Luminator Technology Group worked in conjunction with Trinity Metro installing Luminator's INFOtransit technology to the new Trinity Metro Orange Line. The project was completed in record time, completing the order and installation in 35 days for 5 of the 6 buses. Luminator coordinated the project with Trinity Metro and Vontas - just in time for the ribbon cutting.

Luminator Technology Group's INFOtransit solutions deliver maximum flexibility and options for delivering on-board passenger information. With real-time updates and software to support easy administration, content management and diagnostics, as well as integration into other systems, INFOtransit makes it easy to keep passengers informed-while providing an option for revenue-generating advertising.

"The Orange Line is a high-profile, high-ridership bus route that provides a great customer experience," said Trinity Metro Chief Operations Officer Wayne Gensler. "We wanted to ensure that the on-board technology matched the quality of the service."

***About Luminator Technology Group Global, LLC***

*Luminator Technology Group delivers globally recognized technology solutions that increase intelligence, safety, and efficiency for public transit operations. Luminator is uniquely positioned to provide solutions to connect transit passengers to vital information while supporting the operational objectives of efficient transit operations. Supporting transit bus and rail car manufacturers as well as public transit operators around the globe, Luminator is developing and delivering technology with tangible benefits to public transit.*

## *About Trinity Metro*

*Trinity Metro is a regional transportation system that strives to be the preferred choice for simple, safe, and innovative mobility services in Tarrant County. The agency offers connections throughout the North Central Texas region, providing passenger trips on buses, Trinity Metro TEXRail, Trinity Metro On-Demand rideshare services, Fort Worth Bike Sharing, vanpools and Trinity Railway Express. TRE, a 34-mile commuter rail line jointly owned and operated by Trinity Metro and DART, operates between Fort Worth and Dallas. Trinity Metro is the sole owner and operator of Trinity Metro TEXRail, a 27-mile commuter rail line that runs between downtown Fort Worth and Dallas Fort Worth International Airport's Terminal B.*
